From: Sandra Spence/R8/USEPA/US
To: Gail Franklin/R8/USEPA/US@EPA,

I have no background information on this either. I'd contact Kristen Keteles as she seems to be the point of contact.

Subject: Fw: EPA's Revised Schedule for WET/ATP Discussion on Raton Basin Work Plan

Tonya, Sandi, and Carol: Would you happen to have some background information on the Raton Basin Work Plan for CBM discharges and the WET/ATP discussion that Jim Lazorchak is setting up for February 8th? The WW Unit is unfamiliar with the work plan and Rami Naddy's alternative test procedure, so we're in the dark on what is being proposed for discussion. I've asked Jim L. to forward us additional info, and anything you can add would be helpful.

Thanks!

Gail

Looks like the State will be joining us (do I need to get a list of people attending from them as well?).

Ronda,

I will be there. Thanks for getting it moved back.

Andrew

Andrew:

Sorry for the delayed response, but the news is good. They can "bump" the meeting until 11:30AM on February 8th. It will be at EPA Region 8 Offices from 11:30 AM to 1:00PM (a working lunch). We hope that you, Janet and Dave will be able to attend the meeting with EPA toxicologists and WET program managers.

We look forward to seeing you,

Ronda

Ronda,

Not sure I will be able to make that. I currently have a meeting with the GAO (gov. accountability office) on oil and gas discharges in the am.

If there is anyway to bump it slightly later I may be able to.

Importance: High

WQCD:

As you know, EPA REgion 8 is scheduling meetings on WET testing including representatives from other EPA Regions. Due to schedules, the meeting on Raton Basin/ coalbed methane WET testing and ATP proposal now must occur on Wednesday morning, February 8th from 10:30 to noon (not the afternoon of February 7th). The meeting will occur @ EPA. We truly hope that you will be able to participate in the discussion regarding the Raton Basin on February 8th.

I apologize for the confusion and changes to the schedules; EPA is trying to coordinate with their staff and the out-of- state experts.

Thanks, Ronda

I left a voicemail message on Rami's cell recommending we hold his meeting after the Regional presentation and if possible include his folks in that meeting since the seminar will be very related to their issue as well and then hold a separate meeting 10:30-12:30 Wednesday with Rami, State and Region 8 folks on the Coal Bed Methane WET testing issue.

Region 8 is hosting the Consortium for Research and Education for Emerging Contaminants on tuesday afternoon and we asked Jim to give a talk at that quarterly meeting, so tuesday is pretty booked.

His seminar discussion at the Region is wed am from 9:00-10:30. You are welcome to attend that meeting or meet right after that from 10:30-12 and then maybe go to lunch?
